Dear Dr Nina,

Thank you for agreeing to review manuscript number ASR-D-13-00321R1 for Advances in Space Research. You will have 21 days to submit your review.

Please submit your review online using the Elsevier Editorial System for Advances in Space Research (you may also retrieve the PDF from this website):

<http://ees.elsevier.com/asr/>

Your username is: sandraasr

If you need to retrieve password details, please go to:

http://ees.elsevier.com/asr/automail_query.asp

1. Click [Reviewer Login]

This takes you to the Reviewer Main Menu.

2. Click [Pending Assignments]

3. Click [Submit Recommendation] (in the Actions column)

4. Choose the appropriate recommendation term for the paper e.g. Accept, Revise, Reject

5. Insert your confidential comments to the author (your name will not be released to the author)

6. Enter your comments to the editor (these are not available to the author)

7. Click [Proceed]

8. Click [Edit Review] if you wish to make further changes or [Submit Review to Journal Office] to confirm

9. Click [OK] to confirm your overall recommendation.

For further information on how to submit your recommendation and comments, see:

http://help.elsevier.com/app/answers/detail/p/7923/a_id/133

Thank you in advance for your timely cooperation and for your contribution to the success of Advances in Space Research.

If you experience any difficulties, please do not hesitate to contact the Journal Manager at asr-editorialoffice@elsevier.com. Also, please note that reminders regarding this request will be sent to you until we receive a response.

Please note that as a part of the Your Paper Your Way service, we now differentiate the requirements for new and revised submissions. Authors may submit the manuscript as a single

file Word or PDF to be used in the refereeing process, and the manuscript formatting will only reflect the peer review requirements. To find out more, please visit the journal's Guide for Authors: <http://www.elsevier.com/journals/advances-in-space-research/0273-1177/guide-for-authors>

As a reviewer you are entitled to complimentary access to Scopus and ScienceDirect for 30 days. Your 30-day access can be activated in your "Pending Assignments" page in EES and you have 6 months to activate it. From the Scopus search bar on your "Pending Assignments" page you can access Scopus directly and from there seamlessly access full text articles on ScienceDirect. You can also access Scopus and ScienceDirect directly via www.scopus.com/reviewers, using your EES Username and Password.

Advances in Space Research operates a manuscript transfer service to relevant title[s] in the field. This service gives authors the option, if they are unsuccessful in their original submission, to decide to have their manuscript transferred to another relevant journal without the need to resubmit or reformat.

We recognize that you are the experts in the field and we want to ensure that our editors fully utilize your comments and guidance. As such, your reviewer reports will also be internally transferred along with the manuscript to the editor of the receiving journal. This will also help to eliminate the risk of you receiving the same manuscript twice.

If you would prefer that your reviewer report is not transferred, you will be able to untick the agreement to transfer box when submitting your review.

Overall with this service we are aiming to help facilitate and develop fast, effective and truly innovative solutions to improve the overall manuscript submission and peer review process for all individuals concerned.

Yours sincerely,

Jan Laštovicka, Dr.
Editor in Chief
Advances in Space Research

Reviewer Guidelines are now available to help you with your review:
