

In memory of Antun Balaž - insights into complex systems

Friday 12 June 2026

High-performance computing session - "Zvonko Marić" lecture hall (09:00-13:30)

-Conveners: Dušan Vudragović

time	[id] title	presenter
09:00	[17] European open science cloud: enabling open and collaborative research	Prof. MISHEV, Anastas
09:30	[21] The Serbian AI Factory Antenna: bridging high-performance computing with energy and environmental sustainability	Dr IVANOVIĆ, Miloš
10:00	[18] Grid computing for large-scale scientific research	Dr SAVIĆ, Mihajlo
10:30	Coffee break	
11:00	[19] From HPC and GRID infrastructures to digital ecosystems	Dr STEFANO, Cozzini
11:30	[20] High-performance applications on heterogenous systems - benchmarking and optimisation	Prof. ATANASSOV, Emanouil
12:00	[16] Building regional e-Infrastructure for advanced scientific computing	Dr PRNJAT, Ognjen
12:30	[14] Atomic solitons in optical lattices	Prof. SALASNICH, Luca
